The Luce tops are made and finished by hand with exclusive colours by Nicolò Morales.

Notes:

The tops in Luce are made by hand with natural materials, which react unpredictably to crafts production processes. Their surface can feature thickness differences, little marks, small holes less or more deep, striping, little variations of colour tone and solidity. These characteristics are linked to the very nature of the materials and are considered qualities able to make each top in Luce unique and different from any other.

The Glaze tops are created by manually glazing molded elements in porcelain stoneware. The possible, slight colour and appearance differences of the tops are unpredictable and represent the value and featuring characteristics of a fully handcraft work.

The tops in Cristal are crafted by laying a layer of fabric between two sheets of extralight transparent tempered glass. The edges of the top are sealed to allow a safe use outdoors.

This product can be used also in interior environments.

We advise to use a Winter Set protection cover.
