

Side tables with different dimensions and heights.

Structure: AISI 304 stainless steel, matt varnished in avorio or grafite colour or gloss varnished (reference colours: Mano Lucida wood sample collection), plastic spacers.

Top:

- Luce
- Graniglia
- Lias.

The Luce tops are made and finished by hand with exclusive colours by Nicolò Morales.

Notes:

The tops of Heron are made by hand with natural materials, which react unpredictably to crafts production processes. Their surface can feature thickness differences, little marks, small holes less or more deep, striping, little variations of colour tone and solidity. These characteristics are linked to the very nature of the materials and are considered qualities able to make each top unique and different from any other.

Graniglia and Lias are outdoor surfaces that are produced with a mix of limestone and clay and can be without decoration (Graniglia) or decorated with a modern micro-mosaic (Lias).

Heron side table code B45Q can be used also in compositions created with Orlando seating elements.

This product can be used also in interior environments.

We advise to use a Winter Set protection cover.
