

Side tables.

The Nesso series also includes dining tables available in different dimensions.

Base: profiles in extruded aluminium and molded aluminium joints matt varnished in avorio or grafite colour or gloss varnished (reference colours: Mano Lucida wood sample collection), top support surface in varnished aluminium in colours matching the base.

Adjustable spacers in stainless steel and rubber.

Top: Luce.

The Luce tops are made and finished by hand with exclusive colours by Nicolò Morales.

Notes:

The side table code B124JDE top is composed of alternating Luce elements in two different dimensions.

The tops in Luce are made by hand with natural materials, which react unpredictably to crafts production processes. Their surface can feature thickness differences, little marks, small holes less or more deep, striping, little variations of colour tone and solidity. These characteristics are linked to the very nature of the materials and are considered qualities able to make each top in Luce unique and different from any other.

This product can be used also in interior environments.

We advise to use a Winter Set protection cover.
