

Series composed of single seating, sectional elements and pouf.

A basic element takes on different configurations according to the presence or absence of the backrest and the type and quantity of armrests that complete it.

Structure: varnished AISI 304 stainless steel provided with elastic belts and plastic spacers.

Backrests, armrests and closing panels: gloss-varnished aluminium in a colour matching the background of the visible panels in Diade.

Visible covering of backrests, armrests and closing panels: Diade, white, green or light blue base coupled with Tela fabric.

Seat cushion: removable, in polyester fibre, insert in stress resistant expanded polyurethane, fixed foam covering in waterproof polyester.

Back- and armrest cushion: removable, in polyester fibre, insert in stress resistant expanded polyurethane, fixed foam covering in waterproof polyester.

Cushions upholstery: removable and available in the fabrics Rope T, Brio, or Thea.

NEW 2023

New independent seating element.

- structure in varnished AISI 304 stainless steel provided with plastic spacers.
- backrest and closing panels in gloss-varnished aluminium (reference colours: Mano Lucida wood sample collection)
- removable seat and back cushions, in polyester fiber, insert in stress resistant expanded polyurethane, fixed foam covering in waterproof polyester
- ballasted and removable armrest, in polyester fiber, insert in stress resistant expanded polyurethane, fixed foam covering in waterproof polyester

The new 2023 seating element code B146LAL is independent and is not foreseen to be used in composition with the other seating in the collection.

Notes:

Oasi armrests are available with three different inclinations.

New seating element's armrest is independent and can be positioned on the seat where desired.

Tela is a fabric especially conceived for the production of Diade.

Tela designs Diade surfaces and creates a stunning textile appearance with unexpected mélange effects, which are never the same. The irregularity of colour is due to the structure itself of Twiggy, the yarn used to produce Tela, and is the featuring characteristics of this production technique.

Oasi compositions do not require any coupling system.

We advise to use a Winter Set protection cover.

Awards:

Oasi series has been awarded the ARCHIPRODUCT DESIGN AWARDS 2018 and the GERMAN DESIGN AWARD 2020 in the Gardening and Outdoor Living category.

Diade has been selected for the ADI Design Index 2019.
