Top support structure: cataphoresis treated and matt varnished steel in a colour matching the base.

Top: Cementoskin® coloured concrete.

Notes:

This product can be used also in interior environments.

For this product featuring a top in Cementoskin®, the use of the Winter Set protection usually proposed for products intended for outdoor use is not recommended. The use of the Winter Set could create a humid environment, with no air recycling, which could consequently generate damage to the material.
