EMIR

LOUNGE SOFA

ENGLISH

Emir, "Prince" in Arabic, is a refined sofa that combines original details with compositional freedom. Distinguished by its unique backrest, featuring hand-knotted rope crafted using the macramé technique, Emir evokes the ambiance of a modern-day Thousand and One Nights.

Emir is a modular seating system that is characterized by original backrests with a hand-knotted rope in macramé technique. It is available in different modules with the possibility to create multiple compositions.

Structure (1)

The structure features an aluminium counterframe, finished with powder paints that are resistant to atmospheric agents. The structure includes an iroko wood frame, treated with water-based oil for enhanced protection against UVA rays and to ensure colour uniformity. The feet are made of iroko wood and are equipped with thermoplastic tips.

Backrests (2)

The stainless steel backrests are decorated with hand-knotted rope in macramé technique.

Seat Cushion (3)

The cushion inserts, specifically engineered for superior comfort and performance, are composed of non-deformable polyurethanes in different densities to enhance firmness and support, covered by a polyester fiber net.

Back Cushion (4)

The roll cushion performing as backrest is made from non-deformable polyurethane foam, to conform to any ergonomic needs.

The precise curvature of the roll cushion is achieved through a polyurethane moulding process ensuring a perfect blend of design, comfort and support.

Fabrics

The external covers suitable for outdoor use, are removable and washable, offering ease of maintenance. The underside of the seat cushion is integrated with a non-slip fabric, ensuring anchorage to the structure and breathability. The cushion inserts are encased in a breathable, water repellent fabric, which adds to the cushions outdoor functionality and longevity.

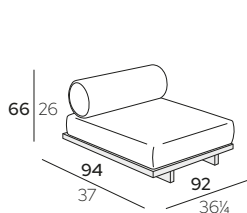

Images of the colours of fabrics and collection materials are to be considered purely indicative and can in no way constitute the main reference for the formulation of orders. Any disputes regarding objective and possible differences between colour samples or between print and web reproductions and the final product will not be considered valid.
