

Il punto di partenza è la tensione verso la bellezza, verso l'arte, in modo che la sorpresa, lo stupore, l'inatteso siano parte anche dell'opera architettonica.

The starting point is the tension towards beauty, towards art, so that surprise, amazement, the unexpected are also part of the architectural work.

(Oscar Niemeyer)

Artigianalità. Craftsmanship.

L'impronta del "fatto a mano"
è per SDR elemento di distinzione
e garanzia di professionalità.

The "handmade" mark is for SDR
an element of distinction and
a guarantee of professionalism.

Quello che emerge dal prodotto SDR è il tratto
artigiano che distingue ogni prodotto e ne
restituisce prestigio e unicità: cura del dettaglio,
ricerca attenta di materiali ed eleganza
nell'espressione finale del concept.

What emerges from the SDR product is the
artisan touch that distinguishes each product
and gives it prestige and uniqueness: attention
to detail, careful research of materials and
elegance in the final expression of the concept.

Tutti i colori della ceramica. All the ceramic colors.

SDR propone una palette di colori che meglio si prestano ad essere coordinati ai bagni che siano moderni, contemporanei o classici.

SDR offers a color selection usefull with modern, contemporary or classic bathrooms.

Bisogna partire sempre dal presupposto che quando si deve scegliere il colore o i colori con i quali arredare la propria casa, non vige una regola generale. **Il primo fattore da seguire è quello di scegliere ciò che ci piace.** 5 sono i colori NUANCE (Beige, Verde, Celeste, Rosa e Grigio) e i colori ESSENCE (Sabbia, Caffè, Grafite, Magnesio e Ghiaccio) e i classici Bianco Lucido e Panna che SDR propone per tutti i prodotti ceramici a catalogo.

To choose a color to decorate your home there are not a general rule. The first aim is to follow your taste. SDR propose is 5 NUANCE colors (Beige, Verde, Celeste, Rosa and Grigio), ESSENCE colors (Sabbia, Caffè, Grafite, Magnesio and Ghiaccio) and the classic Bianco Lucido and Panna that SDR proposes for all the ceramic products in the catalogue.

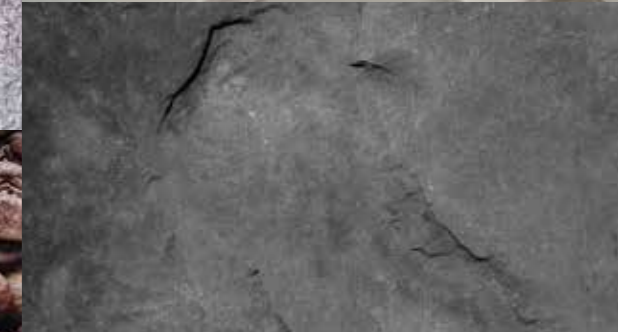

ESSENCE

Per un bagno classico la scelta solitamente è tradizionale e ricade su tinte neutre come il Sabbia e il Ghiaccio. Per un tocco più personale scegliete anche un colore a contrasto come il Caffè o il Magnesio per passare al Grafite di sicuro effetto.

For a classic bathroom the choice is usually traditional and falls back on neutral colors such as Sabbia and Ghiaccio. For a more personal touch also choose a contrasting color such as Caffè or Magnesio or switch to Grafite for a sure effect.

BIANCO LUCIDO
PANNA
SABBIA
CAFFÈ
GRAFITE
MAGNESIO
GHIACCIO

NUANCE

Colori tenui che hanno la capacità di abbinarsi facilmente a tutte le scelte cromatiche, senza nessuna "Arroganza, Prepotenza, Invadenza", ma con la Delicatezza e la Discrezione di nuove tonalità pastello valide alternative al bianco lucido.

Soft colors have the ability to easily match all chromatic choices, without any "Arrogance or power", but with the Delicacy and Discretion of new pastel shades; valid alternatives to glossy white.

BEIGE
VERDE
CELESTE
ROSA
GRIGIO

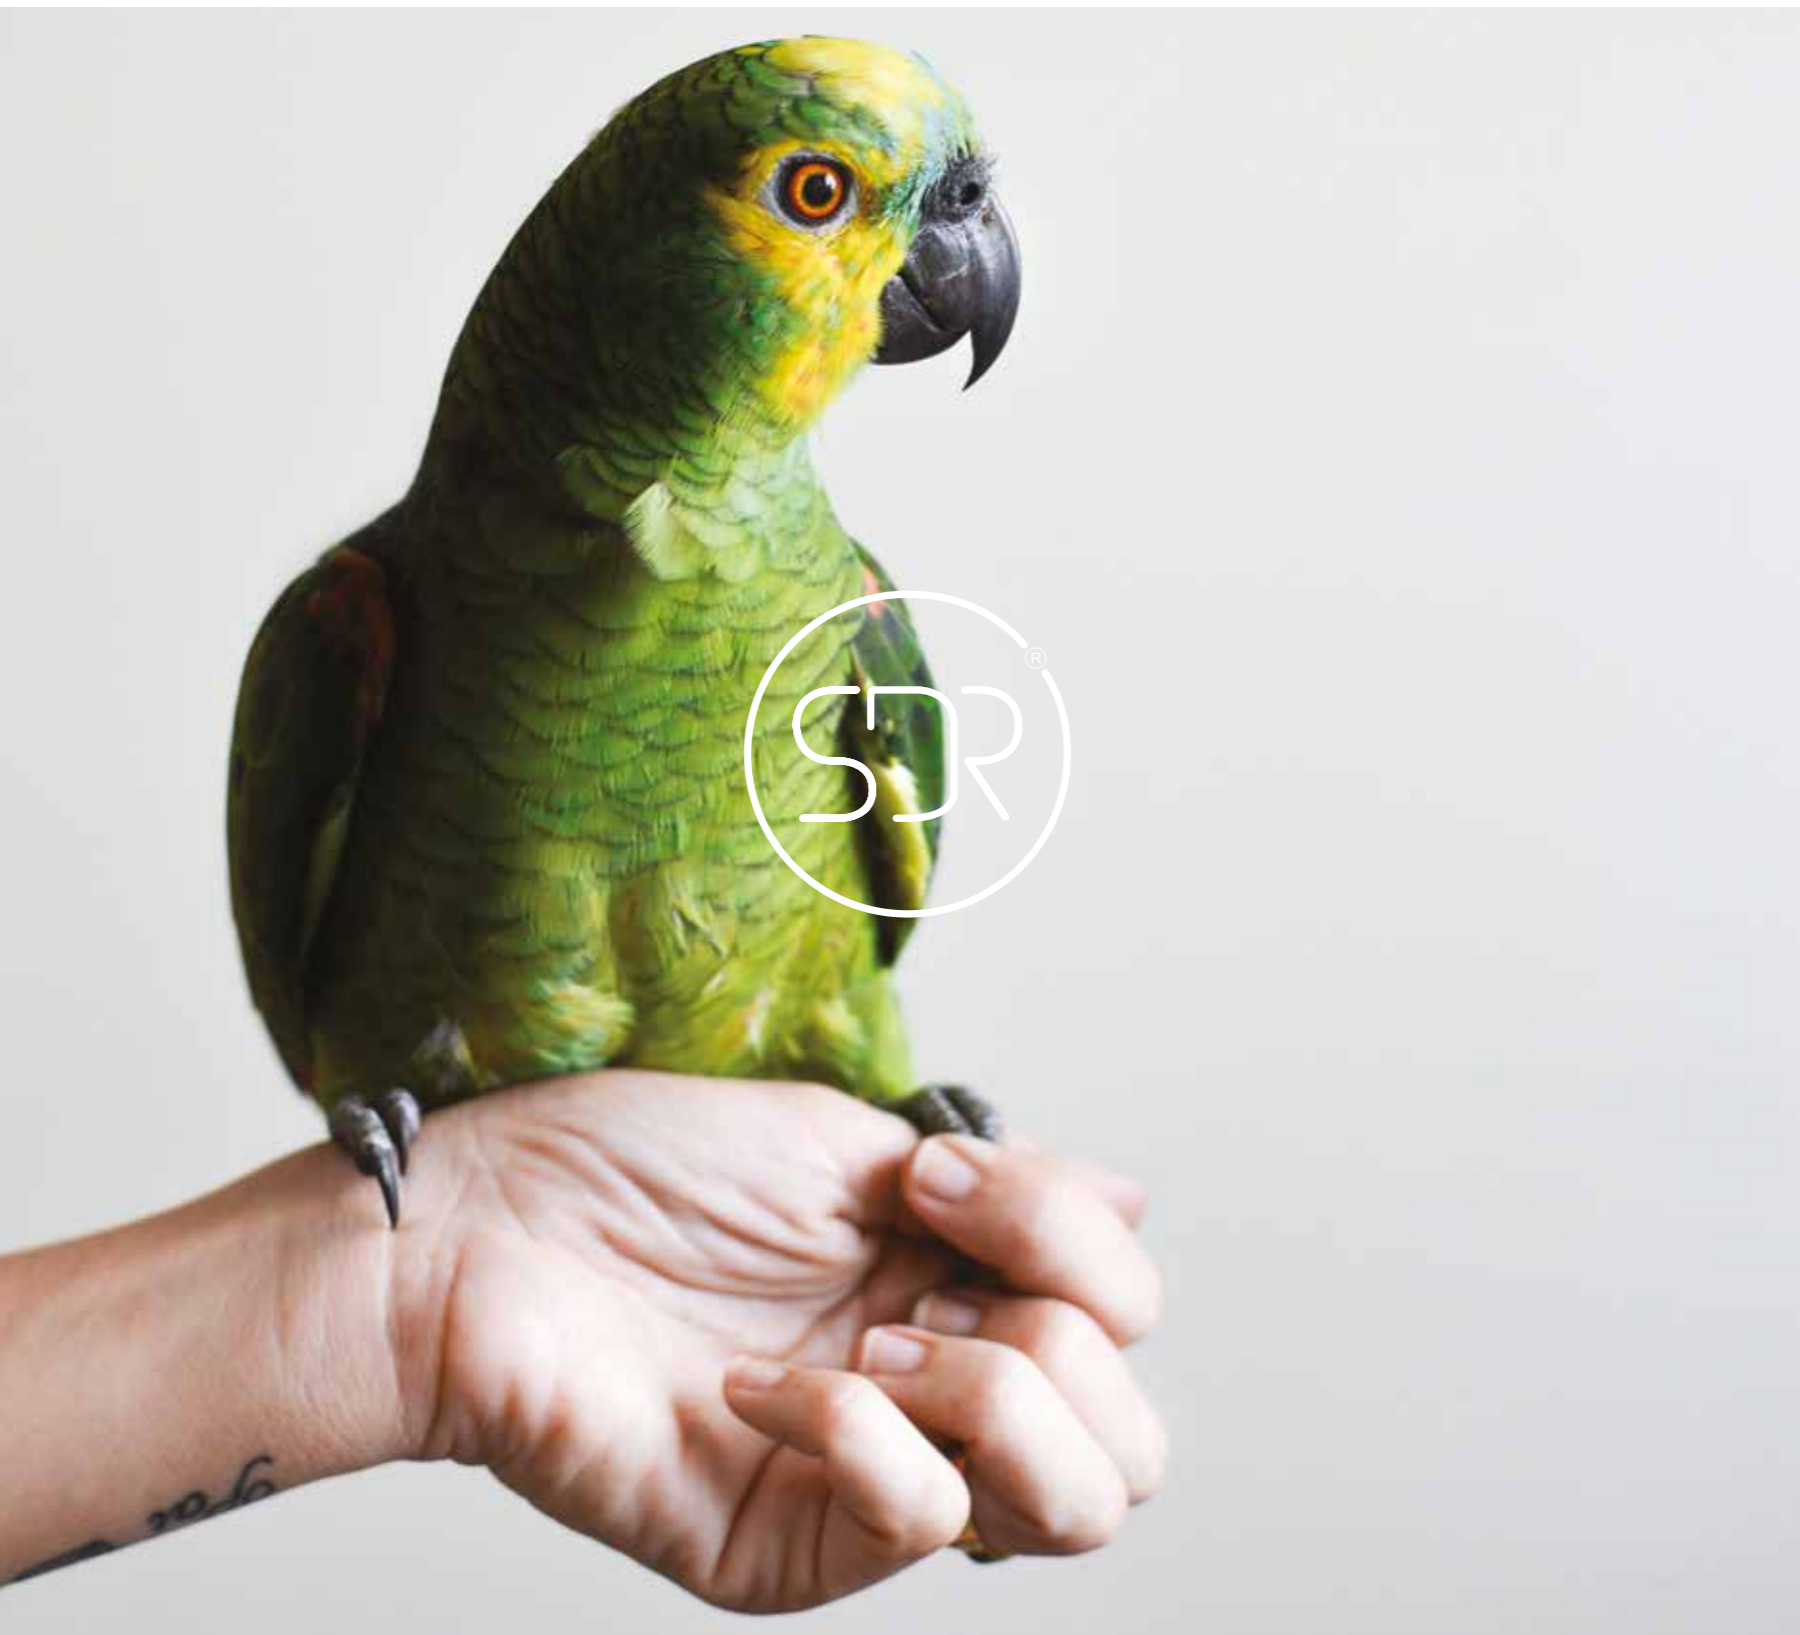

REVOLUTION

Le rivoluzioni, coraggiosamente segnano un nuovo punto di partenza. SDR mette in atto all'interno del mondo del bagno una trasformazione radicale. Il capovolgimento di un ordine. la superficie è solida (solid surface) omogenea, non porosa ed estremamente liscia. La collezione di sanitari prodotta in Livin-Stone® composta da vaso e bidet sospesi, lavabi e vasche. Proposta in quattro colorazioni differenti (Cotone, Camelia, Avio, Aloe), REVOLUTION® si caratterizza per i suoi "spigoli vivi" attorno al perimetro, le superfici perfette.

Revolutions boldly mark a new starting point. SDR implements a radical transformation within the bathroom world. The reversal of an order. the surface is solid (solid surface) homogeneous, non-porous and extremely smooth. The sanitaryware collection produced in Livin-Stone® consists of a suspended toilet and bidet, washbasins and bathtubs. Proposed in four different colors (Cotton, Camelia, Avio, Aloe), REVOLUTION® is characterized by its "sharp edges" around the perimeter, perfect surfaces

PERCHÉ IL BAGNO DEVE ESSERE SOLO IN CERAMICA?

I PRIMI SANITARI IN (LIVIN-STONE®) SOLID SURFACE

Derivato dalla selezione di materie prime di primissima qualità, componente principale è una carica minerale naturale denominata, triidrato di alluminio (ATH), minerale derivato dalla Bauxite, legata da una bassa percentuale di materia "acrilata" che le conferisce malleabilità e lavorabilità. **È un materiale studiato per soddisfare i più alti standard di qualità tecnologia e impatto ambientale**, è:

VERSATILE: è un materiale ad alte prestazioni funzionali ed estetiche.

RAFFINATO: la superficie è solida (solid surface) omogenea, non porosa ed estremamente liscia. Oltre a trasmettere senso estetico e di purezza, è facile da pulire, non ingiallisce e il colore non perde tono nel tempo.

PREGIATO: è completamente atossico, antibatterico, inerte, ipoallergenico, ignifugo. E inoltre si può facilmente ripristinare, e riciclare rientrando così tra quei materiali definiti "eco-compatibili".

WHY SHOULD BATHROOM BE MADE ONLY OF CERAMIC?

THE FIRST SANITARY FIXTURES IN (LIVIN-STONE®) SOLID SURFACE

Derived from the selection of highest quality raw materials, the main component is a natural mineral filler called, aluminum tree-hydrate (ATH) derived from bauxite ore, linked by a low percentage of matter "acrylics" that gives malleability and workability. **It is a material designed to meet the highest standards of quality technology and environmental impact**, is:

VERSATILE: it is a material with high functional and aesthetic performance.

REFINED: the surface is solid (solid surface) homogeneous, non-porous and extremely smooth. Besides delivering aesthetic sense and purity, it is easy to clean, over time does not become yellow and does not lose the color tone.

QUALITY: is completely non-toxic, antibacterial, inert, hypoallergenic, flame retardant. And also you can easily recover, recycle and thus being part of those materials defined "environmentally friendly".

Design.

Spessori, angoli e linee unici
Superfici perfette senza irregolarità
Pulizia delle forme.

Sharpness, corners and unique lines
Perfect and regular surfaces
Cleaning of the shapes.

Il materiale scelto per realizzare la collezione REVOLUTION® dal design moderno è il Livin-Stone®, composto innovativo derivato principalmente da miscele di minerali, resine acriliche o poliestere e pigmenti. Caratteristica distintiva è la sua versatilità nella forma e nel suo impiego, è ideale sia per realizzare prodotti per il privato che per il contract. Si tratta di un materiale ad alte prestazioni funzionali ed estetiche, utilizzato per realizzare superfici piane e curve per arredamento e architettura, dal forte impatto visivo. Abbiamo dato libero sfogo all'immaginazione senza limiti strutturali. Il suo processo di lavorazione permette ai creativi SDR di impiegarlo anche nei sanitari.

Parola d'ordine **REVOLUTION®**.

The material chosen to create the modern design REVOLUTION® collection is Livin-Stone®, innovative compound derived mainly from mixtures of minerals, acrylic or polyester resins and pigments. Distinctive feature is its versatility in form and use, it is ideal for both private and contract products. It is a material with high functional and aesthetic performance, used to make flat surfaces and curves for furniture and architecture, with a strong visual impact. We have given free rein to the imagination without structural limits. Its manufacturing process allows SDR creatives to use it also in sanitary ware. Leading word **REVOLUTION®**.

REVOLUTION

Catalogo Generale

LIVIN-STONE®
ANTIBACTERIAL
MATERIAL

SANITARI ANTIBATTERICI

REVOLUTION®, il primo sanitario in Livin-Stone®, materiale durevole e facile da pulire e inoltre dotato di attività antibatterica. Conforme alla norma **ISO 22196:201 "MEASUREMENT OF ANTIBACTERIAL ACTIVITY ON PLASTIC AND OTHER NON-POROUS SURFACES"**. Questo rende Revolution®, già di per sé innovativo, ancora più all'avanguardia.

CURA E MANUTENZIONE QUOTIDIANA

Si consiglia di pulire la superficie utilizzando una spugna morbida con detergente anticalcare liquido e cremoso (Viacal®, Ajax®, Cif®) o anche uno sgrassatore. In generale, tutti gli sgrassatori universali sono adatti per la pulizia quotidiana delle superfici purché non contengano brillantanti, cere o altri componenti troppo aggressivi.

REVOLUTION®, the first toilet in Livin-Stone®, a durable and easy-to-clean material which also has antibacterial activity. Compliant with **ISO 22196:201 "MEASUREMENT OF ANTIBACTERIAL ACTIVITY ON PLASTIC AND OTHER NON-POROUS SURFACES"**. This makes Revolution®, already innovative by itself, even more avant-garde.

CARE AND DAILY MAINTENANCE

Si consiglia di pulire la superficie utilizzando una spugna morbida con detergente anticalcare liquido e cremoso (Viacal®, Ajax®, Cif®) o anche uno sgrassatore. In generale, tutti gli sgrassatori universali sono adatti per la pulizia quotidiana delle superfici purché non contengano brillantanti, cere o altri componenti troppo aggressivi.

ECO SOSTENIBILITÀ
ECO FRIENDLY

ESSERE GREEN

REVOLUTION® è ECO SOSTENIBILE. Il 75% del materiale del vaso e il 100% del materiale del bidet è riciclabile. Per produrre il vaso si risparmia il 70% di energia combustibile con relative emissioni in atmosfera in linea con il RISPETTO AMBIENTALE.

Il solid surface è un materiale avanzato composto da tri-idrato di alluminio e resina acrilica che uniscono resistenza e duttilità: questi materiali possono essere colorati, termoformati e assemblati unendo più elementi con giunte impercettibili, creando applicazioni di ogni dimensione piane o curve, con continuità di forma, che rimangono pressoché inalterate nel tempo. Grazie alla possibilità di aggiungere e combinare pigmenti colorati durante il processo produttivo (polimerizzazione), si possono ottenere moltissime sfumature diverse: il risultato sarà un prodotto esteticamente impeccabile e chimicamente stabile, con un impatto minimo sulla qualità dell'aria negli ambienti interni.

REVOLUTION® is ECO FRIENDLY. 75% of the material of the toilet and 100% of the material of the bidet is recyclable. To produce the toilet, 70% of fuel energy is saved with relative emissions into the atmosphere in relation to ENVIRONMENTAL RESPECT.

Solid surface is an advanced material composed of aluminum tri-hydrate and acrylic resin that combine strength and ductility: these materials can be colored, thermoformed and assembled by joining several elements with imperceptible joints, creating applications of any size, flat or curved, with continuity of shape, which remain almost unchanged over time.

Thanks to the possibility of adding and combining colored pigments during the production process (polymerization), many different shades can be obtained: the result will be an aesthetically flawless and chemically stable product with an impact minimum on indoor air quality.

RESISTANCE GUARANTEED

RESISTENTE
ECO FRIENDLY

Tutti i prodotti della collezione Revolution® hanno superato i test di carico statico, come da normativa Europea EN-997, questo significa che il vaso sospeso resiste ad un carico statico applicato di kg. 400 per 24 ore, proprio come un qualunque vaso sospeso in ceramica.

All the products of Revolution® collection passed the static load tests, as per European standard EN-997, this means that the suspended toilet resists an applied static load of kg. 400 for 24 hours, just like any ceramic suspended toilet.

C

#COTONE

Tutto è colore, anche il bianco. Nello spettro luminoso, il colore bianco comprende tutti gli altri. Evoca freschezza, pulizia, speranza, bontà, luce, purezza, minimalismo, perfezione perciò è spesso usato nell'arredamento domestico e del design. Con il bianco COTONE possiamo arredare la casa donando luce e ariosità agli ambienti domestici.

Everything is color, even white. In the light spectrum, white includes all others. It evokes freshness, cleanliness, hope, goodness, light, purity, minimalism, perfection so it is often used in home furnishings and design. With the COTONE white we can furnish the house giving light and airiness to domestic environments.

 Bidet Revolution monoforo sospeso Cotone / Wall-hung single hole bidet Revolution Cotone finish
 Piletta click-clack universale e tappo in Livin-Stone® Cotone / Universal click-clack drain with Livin-Stone® Cotone finish cap

Catalogo Generale

Piatta doccia ENIGMA (Pietraluce) 90x130 cm / ENIGMA shower tray (Pietraluce) 90x130 cm

Sempre elegante ed essenziale, la vasca REVOLUTION® free-standing in Livin-Stone® si può posizionare al centro del bagno, se l'ambiente è ampio. In una stanza di dimensioni contenute, invece, la vasca è installabile anche vicino la parete, angolo o nicchia con il miscelatore incassato a parete.

Always elegant and essential, REVOLUTION® free-standing bathtub in Livin-Stone® is possible to place in the center of the bathroom, if the room is large. In a small room, on the other hand, the bathtub can also be installed near the wall, in a corner or in a niche with the built-in mixer on the wall.

C

#CAMELIA

Ormai per molti arredare rosa, arredare pink è diventata una mania, ma questo dimostra che il rosa sia tornato ad essere un colore protagonista è ormai una certezza, anche nell'arredamento! La passione per questo colore nella versione pastello, è di origine nordica, e ha invaso ogni elemento di design. Si tratta di un colore positivo che incute un certo senso di sicurezza e di ottimismo verso il futuro. Il rosa CAMELIA dà un tocco di eleganza e tranquillità agli ambienti riuscendo a creare locali dove ritemperarsi dalla caotica e frenetica vita moderna.

Nowadays for many, furnishing pink has become a craze, but this shows that pink has returned to be a leading color is now a certainty, even in furniture! The passion for this color in the pastel version is of Nordic origin, and has invaded every design element. It is a positive color that inspires a certain sense of security and optimism towards the future. CAMELIA pink gives a touch of elegance and tranquility to the rooms, managing to create places where you can recover from the chaotic and hectic modern life.

#REVOLUTION CAMELIA

REVOLUTION

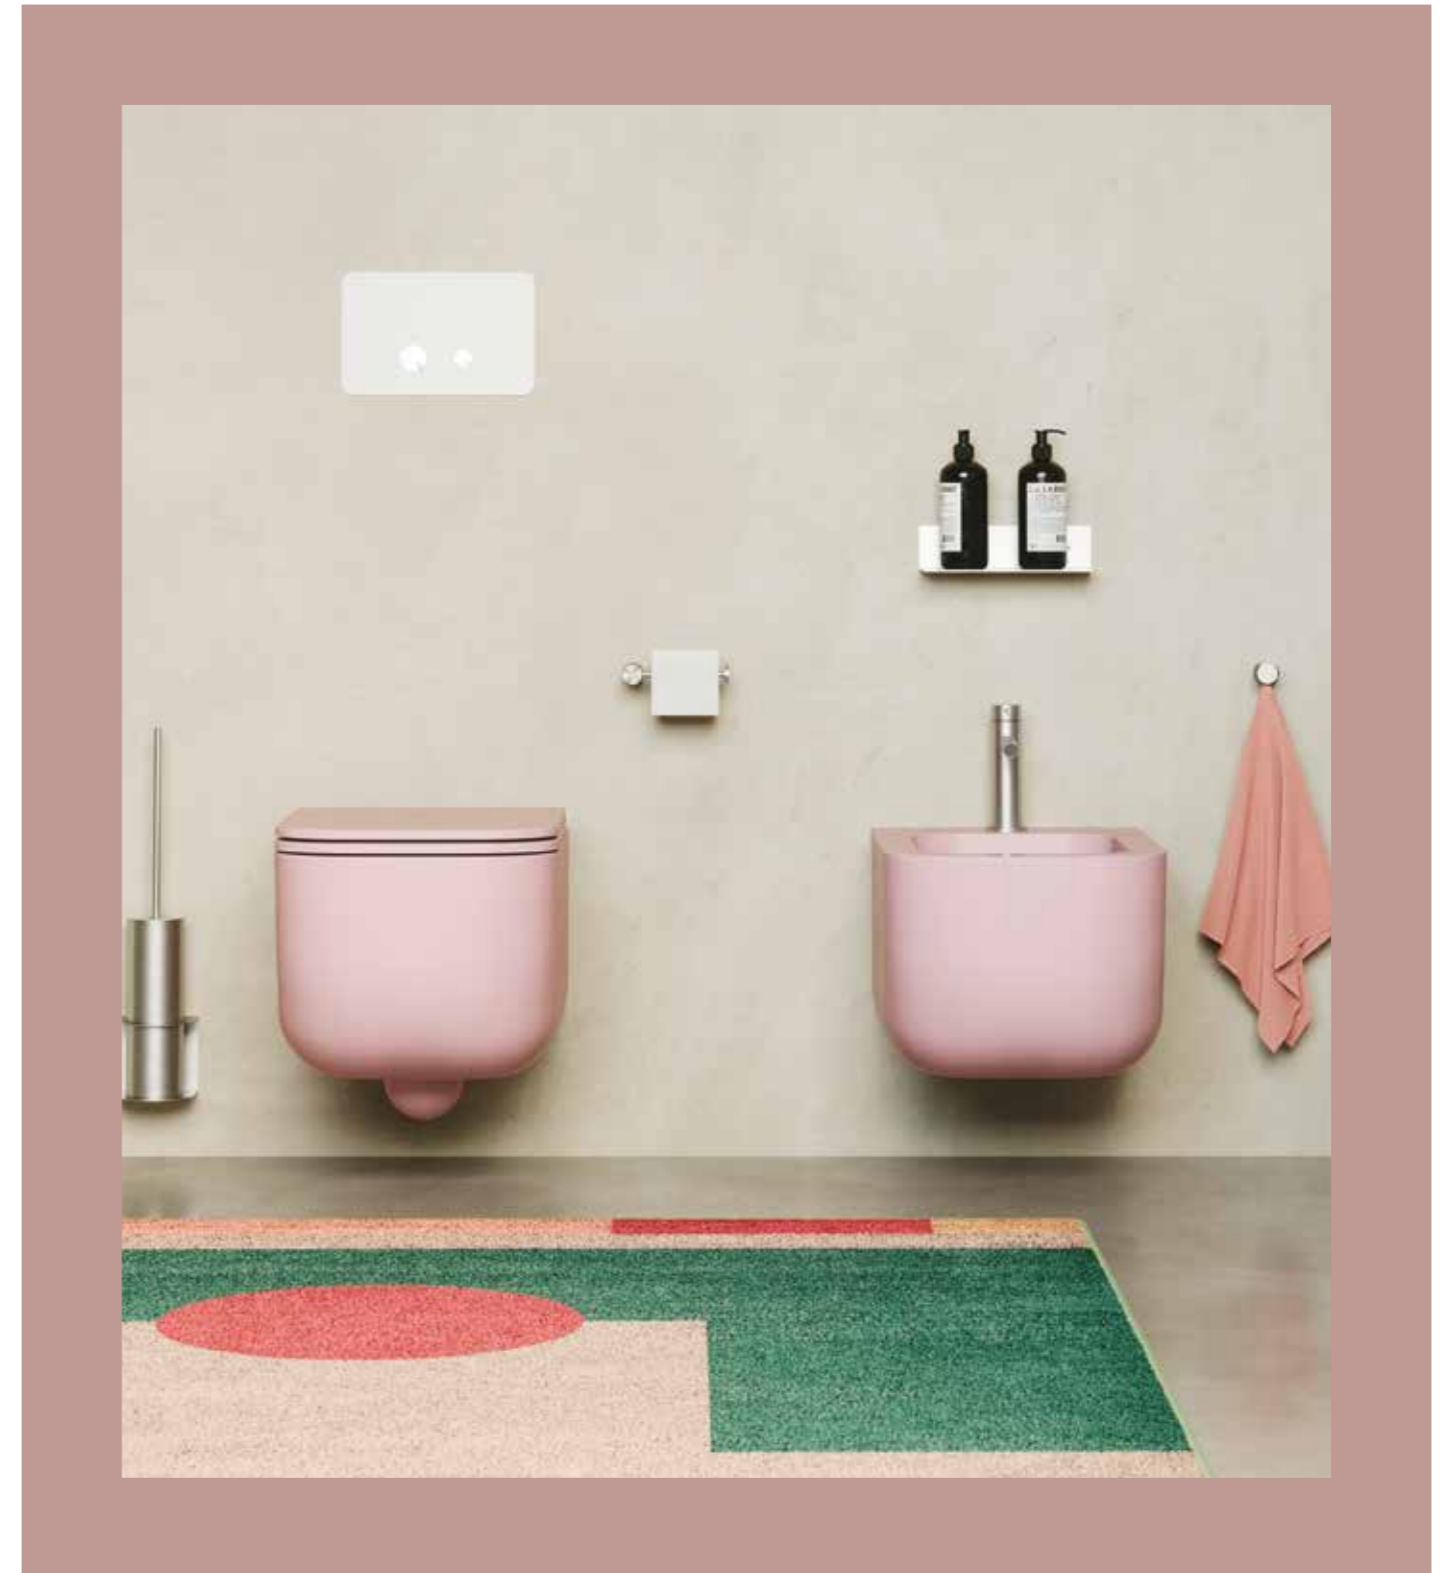

Esaltare le forme per valorizzare gli spazi. Il miscelatore a muro con canna da 19 cm e piastra, come tutta la rubinetteria, è realizzato nel rispetto delle rigorose norme internazionali che prevedono l'utilizzo di materie prime di qualità superiore.

Enhance the forms to enhance the spaces. The wall mounted mixer with 19 cm spout and plate, like all the taps, is made in compliance with rigorous international standards which involve the use of superior quality raw materials.

ENIGMA è un piatto doccia termoformato rettangolare per installazione sia in appoggio che a filo pavimento, nella finitura Camelia. Il copri-piletta nello stesso materiale è ispezionabile il tutto corredato da sifone e piletta.

ENIGMA is a rectangular thermoformed shower tray can be installed laid on or floor level, in Camelia finish. The drain cover in the same material can be inspected, all equipped with siphon and drain.

A

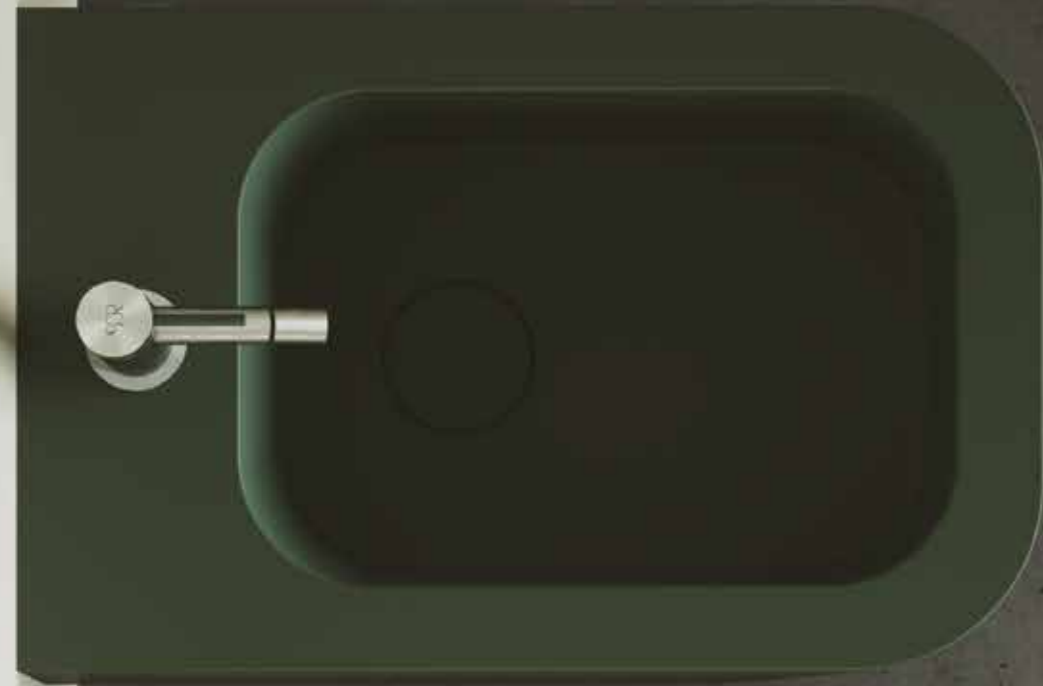

#ALOE

Il verde è per definizione il colore della natura e quindi di tutto ciò che è ecologico, che è bio, che non inquina, che è "green". Quindi per questi motivi ispira sensazioni pulite e rilassanti. Il verde nei bagni ricorda le atmosfere zen abbinato al candore del bianco.

Green is by definition the color of nature and therefore of everything that is ecological, that is organic, that does not pollute, that is "green". So for these reasons it inspires clean and relaxing sensations. The green in the bathrooms recalls the Zen atmosphere combined with the whiteness of white.

#REVOLUTION ALOE

 Bidet Revolution monoforo sospeso / Wall-hung single hole bidet Revolution
 Piletta click-clack universale e tappo in Livin-Stone® Aloe / Universal click-clack drain with Livin-Stone® Aloe finish cap

Un colore l'Aloe, dalla finitura unica, inedita, risultato di un lavoro artigianale che porta risultati sempre ottimali. Gli angoli si fanno lineari, le forme e i volumi diventano protagonisti nell'ambiente bagno. È la materia che si deposita "morbidamente" su spigoli e superfici, omogenea e delicata espressione formale dalla forte personalità.

Aloe is a color, with a unique, unprecedented finish, the result of craftsmanship that always brings optimal results. The edges become linear, the shapes and volumes become protagonists in the bathroom environment. It is the material that settles "softly" on edges and surfaces, a homogeneous and delicate formal expression with a strong personality.

#AVIO

Arredare casa con il color Avio: eleganza e stile.

Un colore che ricorda le azulejos portoghesi e i tetti delle case bianche in Grecia, il color avio è una tonalità del blu che si intreccia alla perfezione con tanti stili e colori. Questo colore prende questo nome perché identifica quello delle uniformi militari dell'aviazione, appunto. Utilizzando il colore dei cieli nell'ambiente bagno lo rende delicato ed elegante.

Furnishing your home with Avio color: elegance and style.

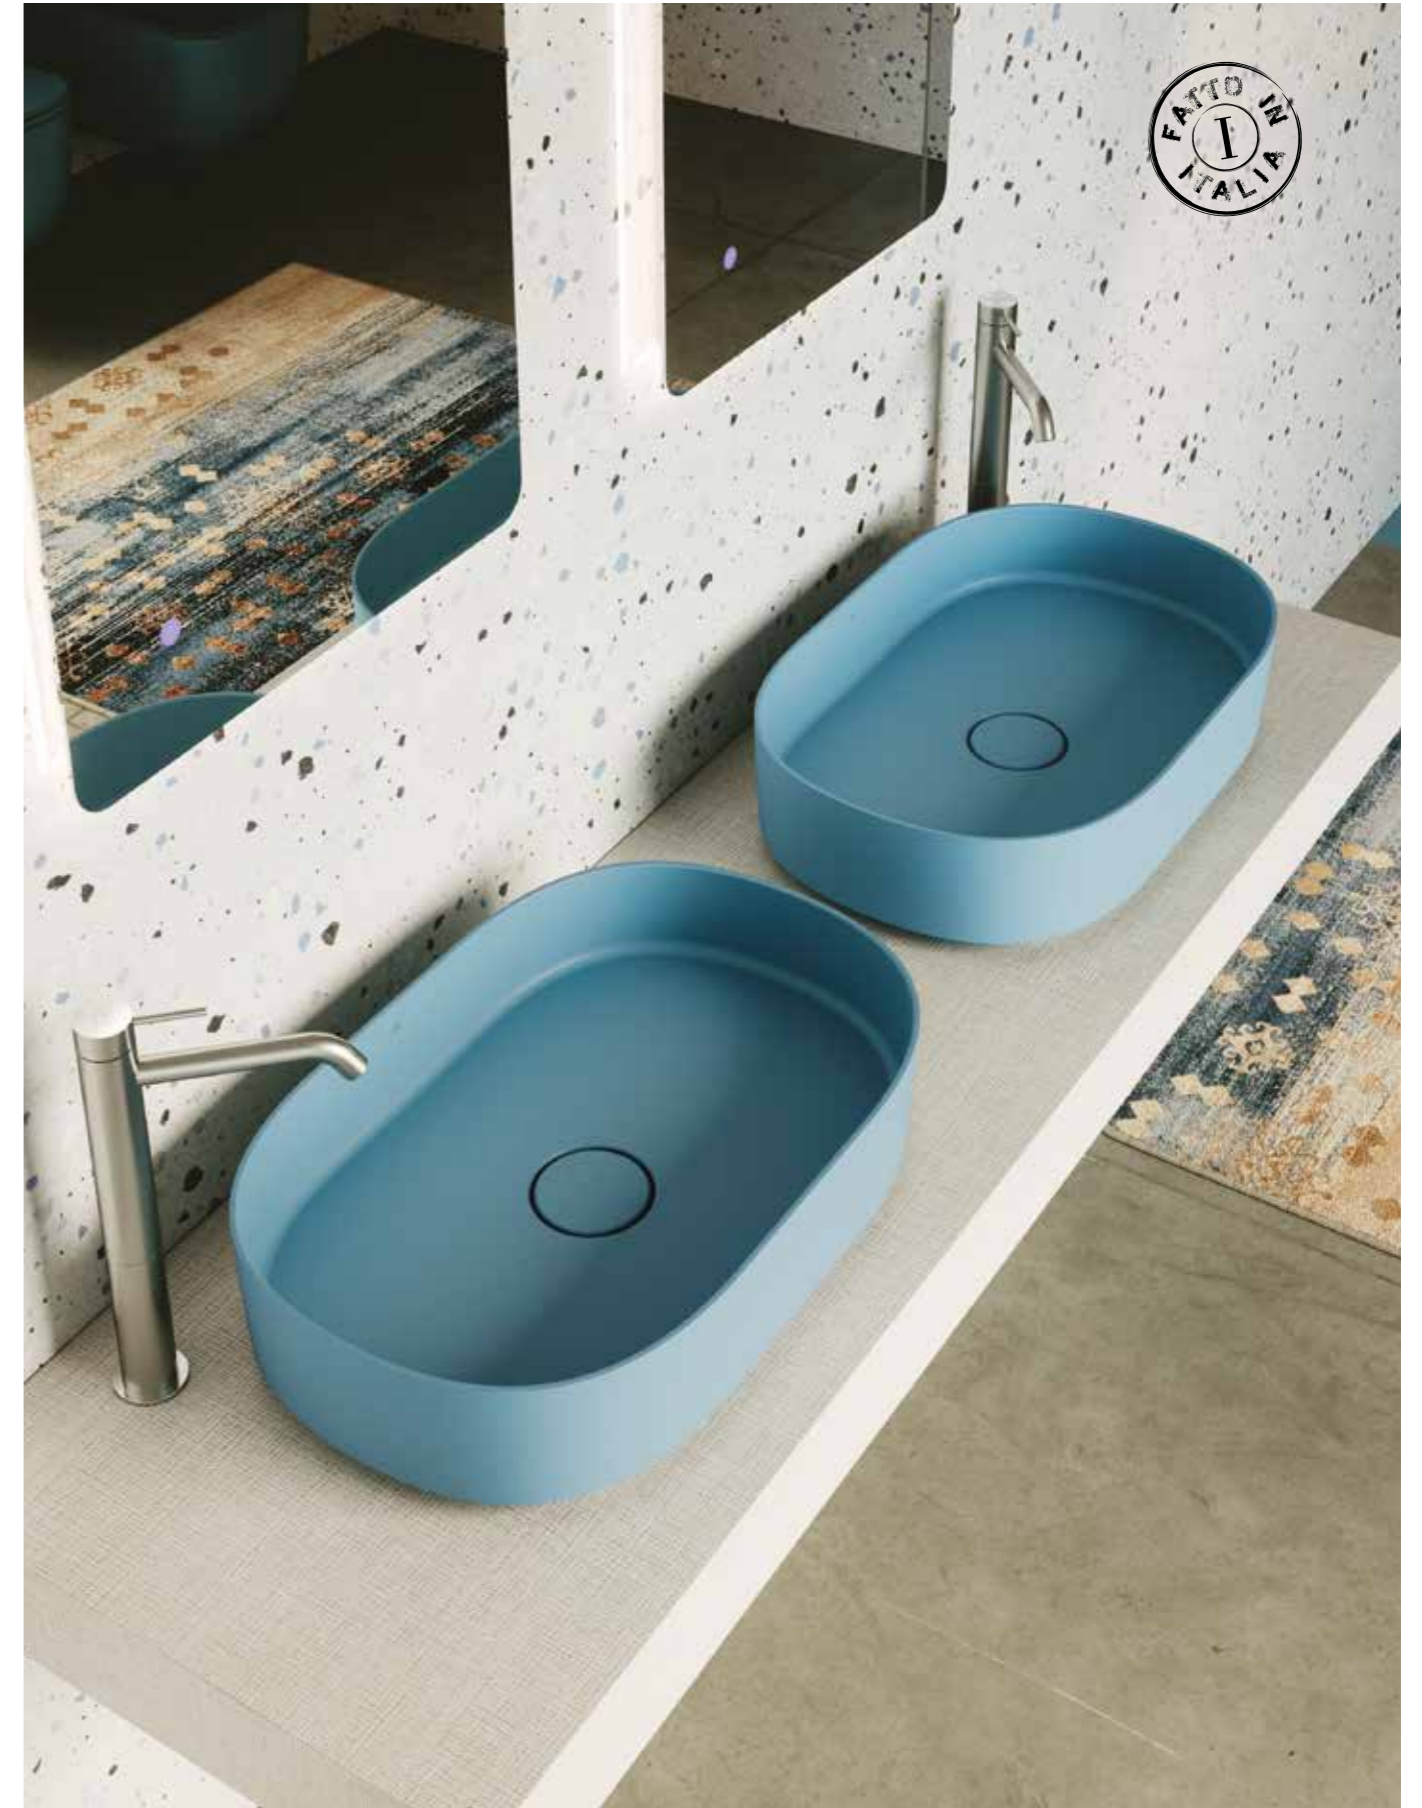

A color reminiscent of Portuguese azulejos and the roofs of white houses in Greece, Avio is a shade of blue that intertwines perfectly with many styles and colors. This color takes this name because it identifies the color of the military aviation uniforms. Using the skies color in the bathroom makes it delicate and elegant.

LIVIN-STONE®

Derivato dalla selezione di materie prime di primissima qualità, componente principale è una carica minerale naturale denominata, tri-idrato di alluminio (ATH), minerale derivato dalla Bauxite, legata da una bassa percentuale di materia "acrilata" che le conferisce malleabilità e lavorabilità è un materiale studiato per soddisfare i più alti standard di qualità tecnologia e impatto ambientale, è:

VERSATILE: è un materiale ad alte prestazioni funzionali ed estetiche.

RAFFINATO: la superficie è solida (solid surface) omogenea, non porosa ed estremamente liscia. Oltre a trasmettere senso estetico e purezza, è facile da pulire, non ingiallisce e il colore non perde tono nel tempo.

PREGIATO: è completamente atossico, inerte, ipoallergenico, ignifugo.

E inoltre si può facilmente ripristinare, e riciclare rientrando così tra quei materiali definiti "eco-compatibili".

DINAMICO: il colore è in tutta pasta e non semplicemente verniciato.

Derived from the selection of highest quality raw materials, the main component is a natural mineral filler called aluminum tri-hydrate (ATH) issued from bauxite, alloyed by a low percentage of "acrylic" matter that gives malleability and workability) a material designed to meet the highest standards of quality, technology and environmental impact that is:

VERSATILE: it is a material with high functional and aesthetic performance.

REFINED: the surface is solid (solid surface) homogeneous, non-porous and extremely smooth.

Besides delivering aesthetic sense and purity, it is easy to clean, over time does not become yellow and does not lose the color tone.

QUALITY: it is completely non-toxic, antibacterial, inert, hypoallergenic and fireproof. Easily restorable and recyclable, it can therefore be defined as "eco-friendly".

DYNAMIC: the color is full body and not simply painted.

COLLEZIONE **PIATTI DOCCIA**

Shower tray collection

I piatti doccia SDR uniscono materiali di alta qualità, design lineare e caratteristiche tecniche innovative. Inoltre offrono facilità d'installazione, di pulizia e di manutenzione, in modo da soddisfare tutte le possibili esigenze.

Proprio per questo motivo abbiamo cercato di unificare l'aspetto estetico, per cui rimangono invariati: piletta sifonata di ultima generazione e copripiletta, altezza 3 cm, quello che varia è il materiale. Siamo riusciti a far convivere perfettamente materiali di natura diversa nello stesso impianto del piatto doccia.

SDR shower trays combine high quality materials, linear design and innovative technical features. they also offer ease of installation, cleaning and maintenance, in order to satisfy all possible needs.

It is for this reason that we have tried to unify the aesthetic aspect: latest generation drain and drain cover, height 3 cm... the only difference is the material.

we have managed to make materials of different nature perfectly coexist in the same design of the shower tray.

SPESSORE RIDOTTO
REDUCED THICKNESS

H 3 cm.

L'innovazione dell'eleganza e la leggerezza dello spessore ridotto di tutta la nostra gamma dei piatti doccia.

The innovation of elegance and lightness of the reduced thickness of our entire range of shower trays.

La rivoluzionaria tecnologia sviluppata negli stabilimenti SDR consente di ottenere una qualità d'eccellenza e una cura dei dettagli eccezionale, conferendo ai piatti doccia un design dall'aspetto ultramoderno. Dalla combinazione tra i materiali (ceramica, pietraluce e marmoresina) e know-how d'avanguardia si ottiene un **prodotto finale dalle elevate prestazioni sia tecniche che estetiche**, proiettando così **l'intera gamma SDR al massimo livello**.

The revolutionary technology developed in SDR factories allows for excellent quality and exceptional attention to detail, giving the shower trays an ultra-modern design. From the combination of materials (Ceramic, Pietraluce and Marble Resin) and know-how, to obtain **a final product with high technical and aesthetic performance**, thus projecting **the entire SDR range at the highest level**.

PILETTA RETTANGOLARE
RECTANGULAR DRAIN

Piletta & Copripiletta.

Drain and drain cover

La piletta rettangolare ispezionabile con coperchio ultrapiatto integra e rafforza le caratteristiche di unicità dei piatti doccia Long Life e Enigma.

Rectangular drain that can be inspected and ultra-flat lid integrates and strengthens the unique characteristics of Long Life and Enigma shower trays.

Entrambe le tipologie di piatti doccia SDR sono caratterizzati da una pendenza per il deflusso veloce dell'acqua e sono completi di piletta sifonata di ultima generazione che ha una portata di scarico acqua di 60 lt al minuto e copripiletta in tono con il colore del piatto doccia scelto. Massima ispezionabilità grazie alle due vaschette e allo **speciale filtro ferma-capelli**.

Both of types of SDR shower trays are characterized by a slope for the fast flow of water and they are complete with the latest generation siphon drain which has a water discharge rate of 60 liters per minute, and matching color with the shower drain cover. Maximum inspection thanks to the two small trays and the **special hair filter**.

Uno dei vantaggi nell'installare il piatto doccia a filo pavimento è quello di avere un piano di appoggio allo stesso livello del pavimento: niente scalini, rialzi o sporgenze. Il piatto è incassato nel massetto di sottofondo. Si ha quindi una soluzione dove il minor ingombro visivo inganna l'occhio per far apparire più grande la stanza.

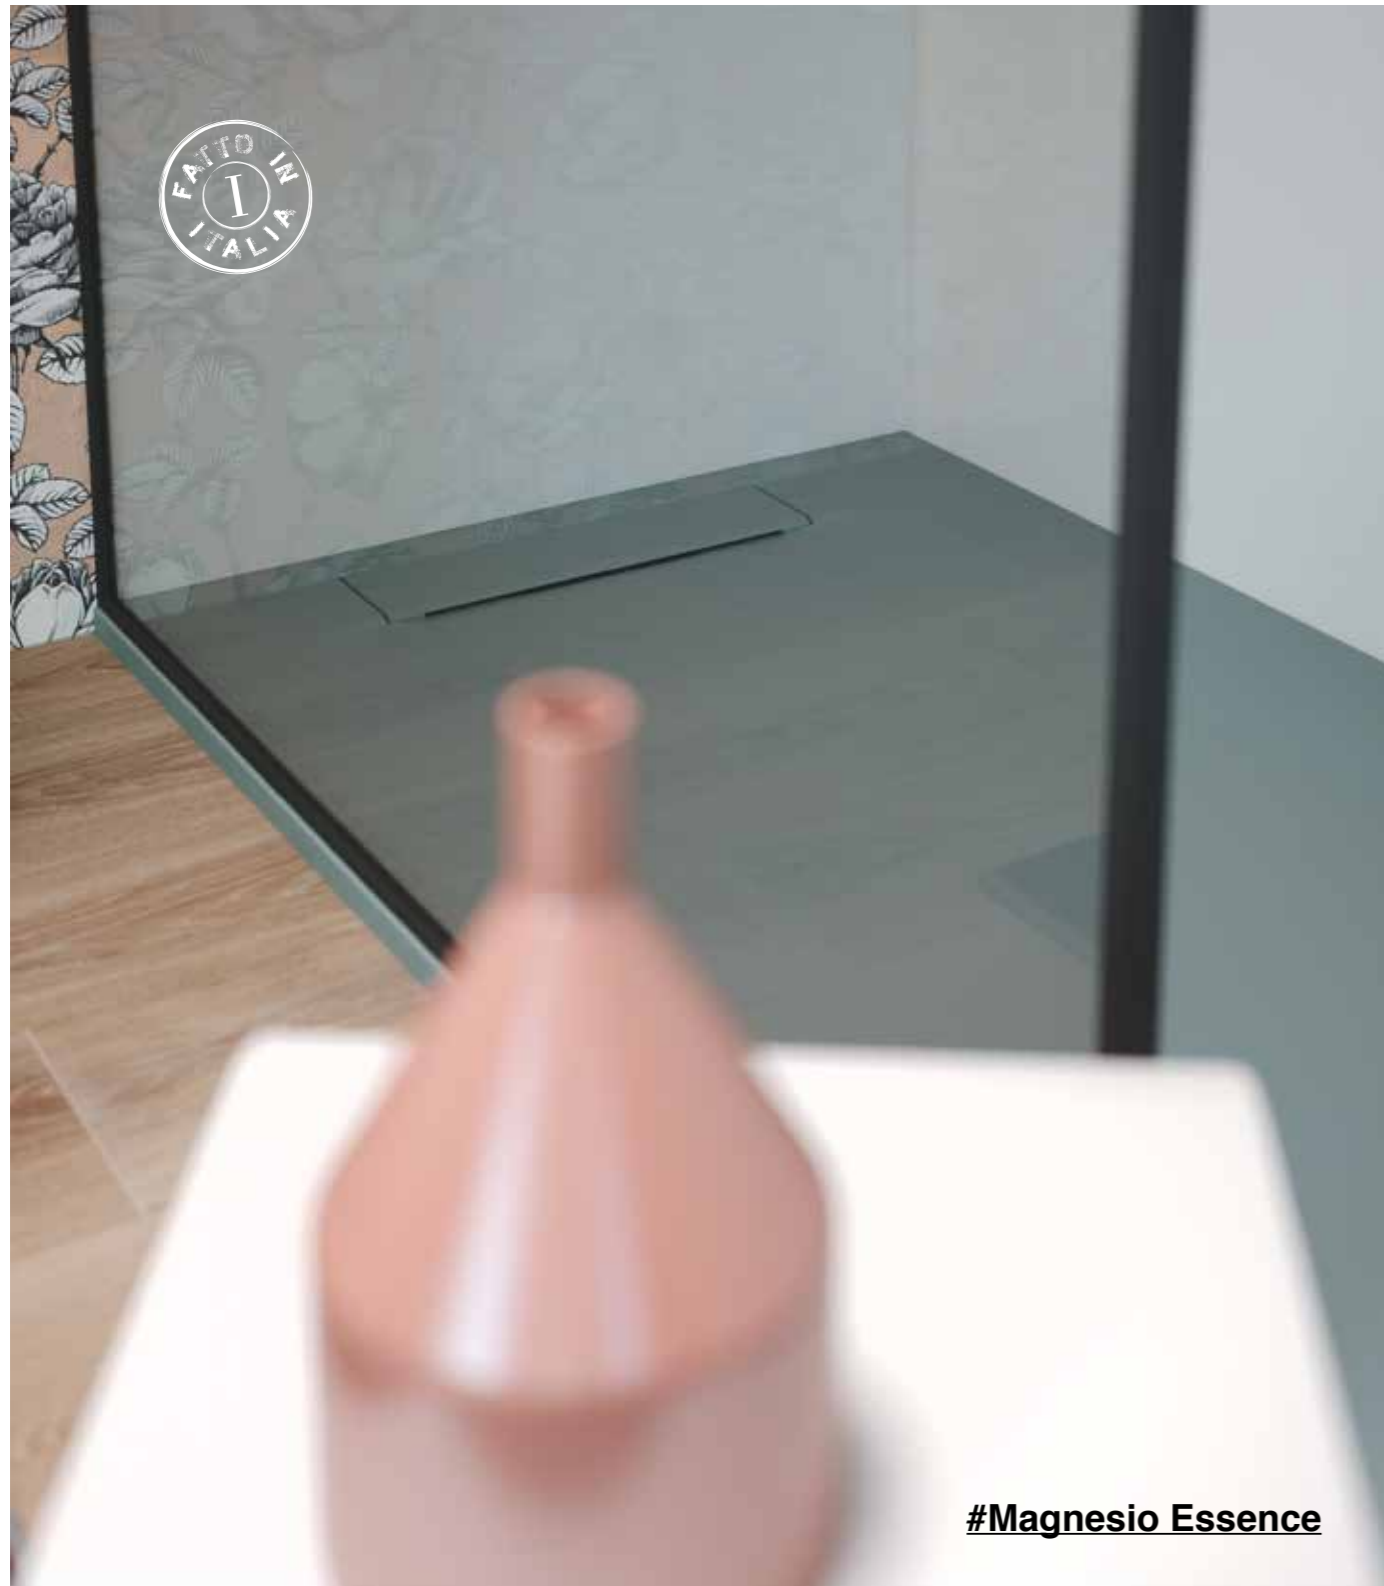

One of the advantages of installing the tray floor level shower is to have a totally even surface at the same level of the floor: no steps, risers or protrusions. The tray is recessed in the background screed. We therefore have one solution where the smallest visual footprint tricks the eye to make the room appear bigger.

Il packaging fa la differenza.

Packaging makes the difference

Uno dei passaggi più delicati nella fase di produzione e consegna di un piatto doccia è il trasporto.

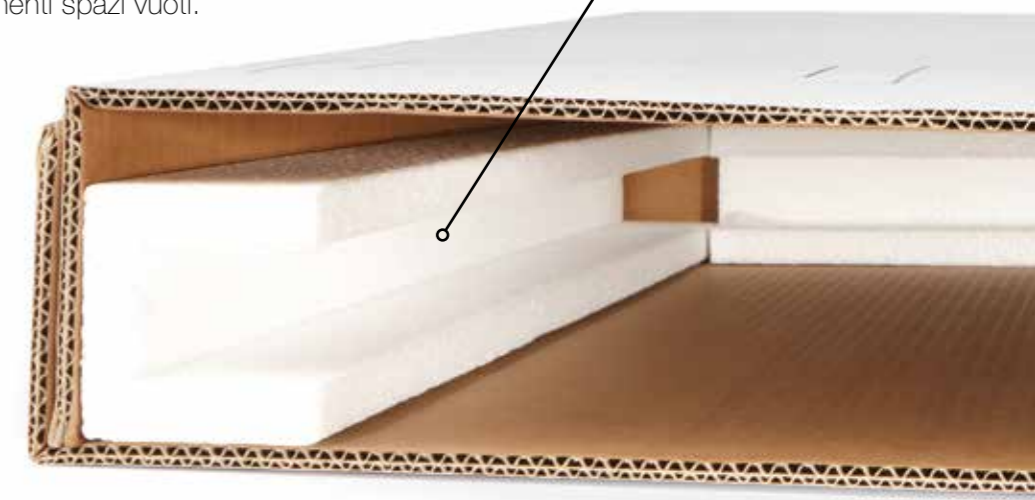

One of the most delicate steps in the production phase and delivery of a shower tray is transport.

Ci serviamo di ottimi trasportatori, selezionati in quanto esperti nella consegna di elementi di arredo. Nonostante ciò l'elemento primario per mantenere integro il piatto doccia è un buon e resistente imballo. **Negli anni abbiamo sviluppato un particolare imballo che è in grado di proteggere molto bene il piatto durante tutte le fasi di consegna.** Per evitare movimenti ed irrigidire il tutto, vengono posizionati alcuni distanziali di polistirolo per riempire i rimanenti spazi vuoti.

We use excellent carriers, selected as experts in the delivery of fragile items. Despite this, the primary element to keep the shower tray intact is a good and resistant packaging. **Over the years we have developed a particular packaging that is able to protect the tray very well during all stages of delivery.** To avoid movements and to make the box more resistant, some polystyrene spacers are placed to fill the empty spaces.

Istruzioni & Garanzia.

IMPORTANTE

Reclami o difetti, dopo la posa in opera, non saranno motivo di contestazione qualora il difetto dovesse essere visibile e/o verificabile prima dell'installazione, (come da adesivo riportato su ogni singola confezione).

Quindi è consigliabile verificare, prima della definitiva installazione, pendenze, e o imperfezioni che ne potrebbero impedire il corretto funzionamento.

L'installazione implica l'accettazione dell'articolo stesso, la garanzia non copre difetti che derivano da un utilizzo non conforme alla tipologia del prodotto; manomissioni, alterazioni, normale deperimento d'uso, manutenzione non idonea ecc. escludendo qualsiasi responsabilità per l'uso di prodotti aggressivi, abrasivi, ecc. che possano deteriorare le superfici.

La garanzia è in ogni caso, esclusivamente limitata alla sostituzione della merce con **l'esclusione di ogni altra prestazione e onere accessorio. L'azienda non risponderà in nessun caso di costi e oneri relativi a montaggio, smontaggio, posa in opera, ecc.**

La durata della garanzia del prodotto è fissata ad anni due dalla data di acquisto del prodotto.

MOBILI E TOP

Da un approccio sofisticato al mondo bagno, nasce SOLIDO, il nuovo mobile bagno in Solid Surface in grado di soddisfare le richieste della clientela più esigente.

Completano la sezione Mobili il modulo con cassettera (30-60-90-120 cm) che si posiziona sotto la consolle REVOLUTION® dando vita a molteplici composizioni. I top in MDF nella finitura Neve consentono di arredare la stanza da bagno in modo elegante e funzionale. La vasta gamma delle misure (tutte con profondità 50 cm) ma con lunghezza da 100 a 240 cm permette la collocazione e la personalizzazione al centimetro.

FURNITURE AND TOPS. From a sophisticated approach to the bathroom world, born SOLIDO, the new Solid Surface bathroom furniture able to satisfy the requests of the most demanding customers. The furniture section is completed by the module with drawers (30-60-90-120 cm) which is positioned under the REVOLUTION® console, giving life to multiple compositions. The MDF tops in the Neve finish allow you to furnish the bathroom in an elegant and functional way. The wide range of sizes (all with a depth of 50 cm) but with a length from 100 to 240 cm allows placement and customization to the centimeter.
