

Lounge chair.

Structure: matt- or gloss-varnished stainless steel AISI 316, plastic spacers.

Springing: visible, in elastic belts in Rope yarn.

Seat and backrest cushions are independent and simply arranged onto the structure.

Padding of seat and backrest cushions: recycled and biodegradable polyester fibre with insert in stress resistant expanded polyurethane and fixed foam covering in waterproof polyester.

Upholstery cover: removable and available in a selection of outdoor fabrics in the collection.

Notes: this lounge chair is the re-edition of the original project by architect and designer Lina Bo Bardi for the Casa de Vidro in São Paulo, Brazil, and is crafted by Paola Lenti on an exclusivity basis under approval of the Instituto Lina Bo e P. M. Bardi.
