Ivy

design : Claesson Koivisto Rune

Side table with top in wood or in Esmal, enameled copper or steel.

Top:
- fibreboard finished Mano Lucida or veneered and finished Mano Opaca;
- Esmal enameled copper (décors A, B and C) or steel (décors C).

Base for side tables with wooden top: steel, matt varnished in grafite colour, plastic spacers.
Base for side tables with Esmal top: steel, matt or gloss varnished according to the top finish and in matching colours, plastic spacers.

Notes:
The border and the lower surface of the wooden tops are lacquered in matt colours matching the upper surface.

The tops with décors C will be made either in copper or steel according to the type of decoration and the specific processing required to obtain it.

The Esmal enamelling is obtained by Alessandra Malfatti with manual production techniques that make each top different from the others, unique and exclusive.

The hedges of the copper tops is not enameled, to allow the material to oxydize over time, as it is intrinsic in its nature, passing from a bright red colour to an intense brown, up to the classic oxide green.

Awards: the series Ivy in the version with wooden top has been selected for the ADI Design Index 2014 and won the GOOD DESIGN AWARD 2013 in the interior furniture design category.
