OUTDOOR RUG

A refined ethnic rug, its complex design is a crossroads of intersections and knots, inspired by the ancient journeys along the Silk Roads. A tribute to the exchange of cultures that shaped history, its intricate patterns reflect the precision of expert craftsmanship, blending tradition and modernity in each unique piece.

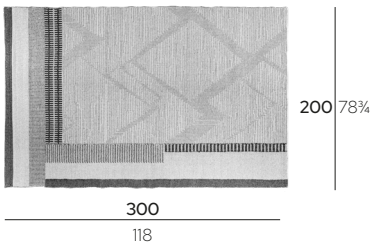

Silkroad is an outdoor rug made using the jacquard technique on semi-mechanical looms. This type of weaving requires the use of bespoke "punching cards", which allow to control individual warp threads, enabling the creation of detailed and complex designs in a sophisticated combination of colours.

Composition

Made of 100% recyclable polypropylene. Polypropylene has excellent light fastness performances. It is a non-hygroscopic yarn, therefore it does not absorb liquids, it dries easily and does not develop mold.
