WAVES & DUNES

ENGLISH

OUTDOOR RUGS

The irregular lines of Waves & Dunes outdoor rugs capture rhythm and emotions of the nature. Handwoven and enhanced using the over-tufting technique, these outdoor rugs are distinguished by the gradient effect of the yarns and their three-dimensional design, creating a striking visual impact.

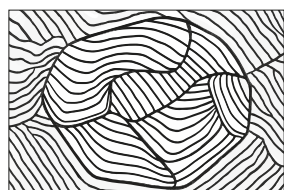

Waves, Dunes and Hills are three outdoor rugs handwoven and then processed with the overtufting technique. They are characterized by the gradient effect of the yarns, which progressively spreads from the center towards the edges of the carpet and by the three dimensional high-low design.

Composition

The rug is made of 100% recycled PET with GRS (Global Recycled Standard) certification, obtained from the recycling of plastic bottles. Every 100 bottles you get the yarn for 1 sqm of rug.
